Tekniset tiedot

The 1155-5001 Sidekick Plus Standard Copper and DSL Test Set helps technicians diagnose and troubleshoot problems with twisted pair cable. Easily install, qualify, and maintain DSL services.

- Saves time. Easy-to-use mode selection dial and operation - minimizes training needs and saves time on the job.
- Versatile. Combines your copper qualification needs with DSL sync and service testing in one test set.
- Fully loaded. The Sidekick® Plus xDSL comes complete with all you need to perform tests on the copper networks that support DSL services.
- No modules needed
