Dual Channel Fiber Access Tool

Versatile shaving tool for gaining mid-span access to bare or buffered fiber.

Introducing the new MSAT-X from Miller®, a versatile shaving tool designed to gain mid-span access to bare or buffered fiber found in a variety of MDU and FTTx jacketed cables. Equipped with a unique spring-loaded plate and dual stripping channels, the patent-pending design enables engineers to load 1.9 to 5 mm diameter cables into the same cutting blade without a sizing gauge.

- Two blade depths to accommodate a variety of cable jacket thicknesses
- Dual cable channels for ultimate flexibility
- Patent pending spring loaded channel plate design
- Hinged lid locates the cables reliably & quickly for maximum efficiency
- Factory-set blade & cutting depths require no adjustments
- Versatile deep & shallow cutting channels are color coded for easy identification
- Safe, compact & ergonomic design fits comfortably in hand for easy operation without risk of injury
