### Tekniset tiedot

Quick and Easy Gigabit High Power PoE Network Deployment  
PLANET POE-171S Gigabit ultra Power over Ethernet splitter delivers the Ethernet digital data with DC 56V power over the twisted pair cables as an IEEE 802.3at/af Gigabit high Power over Ethernet splitter, and it separates the digital data and the power into three optional outputs (12V / 19V /24V DC) and distance up to 100 meters. If the POE-171S co-works with PLANET POE-171 (60-watt IEEE 802.3at PoE injector), it can offer more PoE applications, such as:
